

Fishkind, Bakewell & Maltzman Eye Care would like to remind you that you can **SAVE MONEY** on vision correction procedures, like the Visian ICL or LASIK by utilizing your **CAFETERIA PLAN** (Flexible Spending Account) offered by your company through your benefit plan. Yes – these procedures, which correct nearsightedness and astigmatism, and reduce dependence on glasses and contact lenses, are eligible healthcare expenses for Section 125 pre-tax dollar Flexible Spending Accounts.

Since most insurance companies do not include vision correction procedures like the Visian ICL as a covered benefit, use of your Cafeteria Plan is often the only benefit you have to reduce your out-of-pocket expense for this life-changing procedure.

We are approaching the end of the year and you should be aware that if you have unused money set aside in your Cafeteria Plan, you will forfeit that unused money at year end. There is no rollover of these funds.

If you have been thinking about vision correction, now may be the right time for you to schedule an evaluation to determine if you are a good candidate for one of the many procedures we offer. You may be able to either use the funds you already have set aside in your Cafeteria Plan, or set up a plan for the New Year ahead, so that you can take advantage of the tax savings in 2009.

Fishkind, Bakewell & Maltzman Eye Care is proud to serve Tucson's refractive needs with the quality and experience of Drs. Fishkind, Bakewell and staff. We offer the latest technology and an informed, personal touch to all of our patients.

Don't lose the tax benefits available to you! Please contact us at 1-888-356-6622 today to schedule your complimentary evaluation and find out if you are a candidate for vision correction. We can help you see your world in a whole new way!

P.S. To learn more about the Visian ICL, please go to www.visianinfo.com.
